EDUCATION

Hunter College, City University of New York (CUNY) — New York, NY
BA in Computer Science | GPA: 3.90/4.00 — Expected Fall 2025

PROJECTS

Diava | Capstone Project — Jan 2025 – May 2025
- Designed and developed core frontend features using React, Tailwind CSS, and Material UI
- Implemented book search/filtering with Google Books API and CRUD functionality for personalized book lists
- Developed a personalized RAG recommendation system based on recent user reading history and gamified features

Art Restoration | CTP Final Project — Oct 2024 – Dec 2024
- Developed a machine learning model to perform restoration on art images using TensorFlow, Python, NumPy, and Pandas
- Preprocessed and cleaned a dataset of over 850,000 images for optimal model training and evaluation

HawkHelper | CTP Hackathon — Aug 2024
- Built a chatbot to assist Hunter College students, scraping data using Python and BeautifulSoup to train the chatbot
- Engineered a responsive front-end interface using ReactJS, Express.js, and CSS, integrating the Gemini API

Book Search | Google Mentorship Project | Codefest 2024 — Feb 2024
- Developed a book search web application with a team of 3, utilizing Google Books APIs to streamline search functionalities
- Implemented front-end components using SvelteKit and styled the application with CSS

RELEVANT EXPERIENCE

PwC — New York, NY
Software Engineer Intern — Jun 2025 – Present
- Developing an AI agent using Python to analyze code and generate visual representations automatically
- Using Langflow to integrate large language models into the development process
- Containerizing components with Docker to support scalable deployment and consistent development environments

Women in Computer Science (WiCS) — New York, NY
Web Master — Feb 2025 – Present
- Rebuilt the WiCS website using React, TypeScript, Next.js, and shadcn for improved performance and user experience
- Designed and implemented an admin dashboard using Firebase to enable streamlined content management

CUNY Tech Prep — New York, NY
Fellow, Software Development/Data Science — Jul 2024 – May 2025
- Selected for a competitive data science fellowship with students from across the 11 CUNY senior colleges
- Mastered Python 3, Jupyter Notebooks, Pandas, Numpy, Scikit-learn, and SQL, and learned best practices in EDA, feature engineering, data processing, statistical modeling, data visualization, machine learning, data science process, and big data

PwC — New York, NY
Products and Technology Intern — Jun 2024 – Jul 2024
- Presented user experience improvements and marketing strategies for a pro bono case involving a nonprofit in education
- Leveraged Microsoft Power BI and Excel to visualize, clean, and analyze data for PowerPoint presentations in pro bono case
- Worked on a case study independently, analyzing key findings and presenting actionable insights

SUPPORTING EXPERIENCE

DigitalJetstream — New York, NY
Customer Service — Aug 2022 – Present
- Executed targeted email campaigns to engage a customer list of 100+ individuals, resulting in a 5% increase in open rates
- Provided technical support and assistance to customers by enhancing website functionality through Joomla!
- Supervised and mentored a team of interns by overseeing their activities and providing constructive feedback

SKILLS

Programming: C++, HTML, CSS, JavaScript, React, TypeScript, Python, MySQL, Java, SvelteKit, Express.js
Technologies/Tools: Git/GitHub, Firebase, TensorFlow, NumPy, Pandas
